When You Buy Ordinary Tubes You Are Buying Doubtful Quality

Tubes may leave a factory in good condition but whether they reach you that way is "Doubtful." Because it is commonly known that ordinary constructed tubes may be disqualified in handling—Therefore if they are good after you receive them, its just "luck," and even Luck is doubtful.

When You Buy New Supertrons You Are Buying Definite Quality

Supertrons are internally re-enforced—so that the three elements are tied into one unit. They are vibrationless—Uniform and Oh Boy! what quality—DEFINITE QUALITY.
